WHO WE ARE

Institutional Advisory, *Reimagined for Africa*

AJ Global Consulting Group is Africa's evidence-first institutional advisory firm, headquartered in Maiduguri, Borno State, and registered with the Corporate Affairs Commission of Nigeria (RC: 9542944). We are a multidisciplinary team of researchers, governance specialists, financial advisors, technologists, and field practitioners who have worked inside the systems we now help strengthen — partnering with donors, UN agencies, NGOs, and governments across Nigeria and Africa.

From one of the continent's most demanding operating contexts, we translate complex donor requirements into clear, deliverable roadmaps — combining evidence rigour, governance discipline, and implementation-focused strategy.

OUR VISION

An Africa where institutions — public, non-profit, and private — make decisions backed by credible evidence, governed by transparent systems, and delivered with measurable impact.

OUR MISSION

To equip institutions across Nigeria and Africa with the evidence, governance systems, and strategic capability they need to make confident decisions, deliver measurable impact, and earn lasting trust from the communities and donors they serve.
